religious mourning is about a common experience among those who study religion religious loss when people of faith study religion critically or when life experiences such as death and divorce trigger personal reflection on faith religious intellectuals often become estranged from their own tradition sometimes this estrangement causes them to leave religion altogether but for those who study religion from a psychological perspective a certain kind of introspective and iconoclastic religiosity can be revived by means of academic writing religious mourning explores this phenomenon by focusing on psychobiographical writings about religious leaders including donald capps portrait of jesus of nazareth james dittes portrait of saint augustine and william bouwsma s portrait of john calvin to show how these authors personal lives and especially their experiences of loss influence their scholarship as capps dittes and bouwsma subversively scavenge the lives of jesus augustine and calvin to reverse and restore a religion that is rich with experience including and especially their own they invite us to do the same
