most new testament nt introductions because of page limitations and other reasons tend to minimize their treatment of the last nine books of the christian bible from hebrews to revelation the focus in these introductions is often on the four gospels and the letters of paul as important as these books are one should not neglect with only a brief survey the treatment of hebrews the general letters and the book of revelation the title given later to the collection catholic epistles or general letters is a reminder of its general appeal to the whole church despite its slow canonical recognition and authorship issues nevertheless these writings from hebrews to revelation continue to capture our attention and ignite our imagination my purpose for this book is to supplement my nt introduction and others like it with a focus on specific questions about each book from hebrews to revelation when and why was each book written by whom and to whom was each book written what are some special features of each book how soon or late was each book included in the nt collection answers to many of these questions are tentative the assured results of scholarship are in continual need of reevaluation since the 1980s a host of diverse studies have emerged and i have endeavored to include them when they are relevant to the discussion
